Care & Maintenance Information

Marble, Granite & Masonry

Maintaining Cambria is easy. Simply wash with a soft cotton cloth and warm water, use a mild soap if desired. DO NOT use abrasive or stoned alkaline or acid (high or low pH) cleaners. DO NOT use or expose Cambria to bleach, oven cleaners, Comet, Soft Scrub, SOS, products with pumice, batteries, paint removers, furniture strippers, tarnish or silver cleaners. DO NOT use abrasive or harsh scrub pads. **DO NOT** apply any sealers, penetrants or tropical treatments to Cambria under any circumstances. Such products will wear off and cause the gloss to appear dull or inconsistent. Contact Cambria for further information by calling 1-866-Cambria or visiting our website at www.cambriausa.com.

1. Cambria is pure natural quartz. Variation in the natural stone (quartz) color, pattern, size, shape and share are inherent and unique characteristics to be expected with this product. This does not affect the product performance in any manner.
2. Color blotches are intended and designed into many colors to enhance the natural beauty. Samples are small select cuts from a slab; they do not exhibit all the characteristics of a color and therefore are not fully representative of what will be installed. Product will not be replaced due to these variations.
3. Cambria is durable and more resistant to surface damage than other stone. However, all stone can be damaged by force and no stone is chip-proof. Objects hitting edges particularly at sinks or dishwashers may cause chips. Though a minor knife slip will dull the knife and not harm Cambria, no stone surface is scratch proof. Surface markings are more visible on monotone colors than multi-color surfaces.
4. Cambria is not a seamless product. Seams are visible. Where there are seems the product patten and shade can change.
5. Natural stone surfaces can be damaged by sudden and/or rapid change of temperature especially near the edges, as well as direct and/or sustained heating of the top. Cambria may not withstand the direct transfer of the heat from pots and pans and other cooking units such as electric frying pans and griddles, and some cook-pots or roaster ovens and heat lamps. Therefore, the se of a hot pad or trivet is always recommended to prevent heating the product.
6. Cambria is not a structural support product. 2-cm and 3-cm Cambria thicknesses are for countertops and must be supported. 1-cm thicknesses are for surface finishes such as walls, tub and shower surrounds and fireplaces; horizontal applications such as tub deck must be completely supported as well.
7. Semi-polished or honed surfaces (1-cm) will not shine and will soil and appear to stain from soiling.
8. Cambria installation is optimized when walls and cabinets are properly prepared for installation. This includes but is not limited to structurally sound, straight, level and square walls and cabinets, lack of which may cause poor installation and poor seam fill, or inconsistent countertop overhang and placement.
9. Cambria installation does not include qualification of any sink or stove cutouts (any cutouts), faucet hole locations or cabinet sizes. Cambria IS NOT responsible for verifying if sinks, stove or other cutout appliances, cabinets and faucet hole locations fit together well, or at all. This is the responsibility of the owner, general contractor, or the like. Cambria IS NOT responsible for the accuracy of the information provided.
10. Cambria installation does not include any plumbing or electronic work.

This is a controlled document which is subject to change. Refer to the Cambria Business Partner Portal for the current version at extranet.cambriausa.com. This Cambria Standard Operating Procedure (SOP) is made available by Cambria upon request. This SOP is not intended to be interpreted as all-inclusive detail specific to a given application. The SOP is intended to be used by qualified individuals with proper knowledge and skill of the technical application; such persons are responsible for the quality, workmanship, safety and reliability of their works as well as discretion for other applicable technical needs required for the application. Cambria assumes no responsibility, wholly or partially for any of the design, safety or workmanship of the installation.

Approved Cleaners Statement

Thank you for your request for additional information regarding the care of your Cambria. Maintaining your Cambria is easy. Simply wash with a soft cotton cloth and warm water, use a mild soap if desired. If you have dried spills and desire to use a cleaner, Cambria recommends you use one of the following products:

Clorox Anywhere	Simple Green D Pro 3 Cleaner
Clorox Anywhere (Hard Surfaces)	Windex
Clorox Disinfecting Kitchen Cleaner	Windex Multi-Surface Cleaner with Vinegar
Clorox Wipes Bleach Free Lemon Fresh	3M Glass Cleaner
Formula 409 Orange Power Daily Kitchen Cleaner	Denatured/Isopropyl (rubbing) alcohol
Goo Gone	Saniten N-313

Please avoid selecting a variation of the product listed above, as most brands have multiple variations of product types; some variations may include chemicals or additives that could damage your Cambria.

Additional Information:

Desert collection colors may require more frequent attention from finger prints or other spills; Simple Green D Pro 3 and/or denatured/isopropyl (rubbing) alcohol work very well in this situation. DO NOT use abrasive or strong alkaline or acid (high or low pH) cleaners. DO NOT use or expose Cambria to bleach, oven cleaners, Comet®, Soft Scrub®, SOS® products with pumice, batteries, paint removers, furniture strippers, tarnish or silver cleaners. DO NOT use abrasive or harsh scrub pads. DO NOT apply any sealers, penetrates or tropical treatments to Cambria under any circumstances. Such products will wear off and cause the gloss to appear dull or inconsistent. Contact Cambria for further information by calling 1-866-Cambria or visiting our website at www.CambriaUSA.com .

We appreciate you being a Cambria customer and look forward to helping you in the future. If you have any additional questions, please visit www.CambriaUSA.com , or call toll free to speak to one of our Cambria Customer Care representatives at 1-866-CAMBRIA (226-2742)
